PROFILE SUMMARY

Final-year Computer Science student at Assiut University with hands-on experience shipping cross-platform mobile and web applications using Flutter, .NET Web API, and Laravel. Delivered multiple commercial freelance projects end-to-end — from architecture to deployment. Recognized competitive programmer with an ICPC Honorable Mention; combines algorithmic thinking with practical engineering to build scalable, maintainable software.

TECHNICAL SKILLS

Mobile	Flutter · Dart · Cubit/Bloc · Provider · Firebase (Auth, Firestore) · Localization · Responsive UI
Backend & Web	.NET Web API · Laravel · C# · Python · Java
Databases	SQL · Oracle DB · PL/SQL · SQLite · Firebase Firestore
Core Skills	Data Structures & Algorithms · Competitive Programming · Cloud Computing · Software Architecture

PROFESSIONAL & PROJECT EXPERIENCE

Flutter Developer | ModernFix Mobile Application · 2025 – Present

- ▶ Built a production-ready cross-platform mobile app (iOS & Android) using Flutter and Dart, reducing codebase duplication by ~40% versus native development.
- ▶ Integrated Firebase Authentication and Firestore for real-time data sync, supporting secure multi-user access.
- ▶ Engineered a live order-tracking system with push notifications, improving customer visibility into service status.
- ▶ Implemented full in-app localization (Arabic/English), expanding the app's addressable user base.

Full-Stack Developer (Freelance) | Mr. Wafaa E-Commerce Platform · 2026

- ▶ Designed and deployed a production e-commerce web app (mr-wafaae-shop.web.app) for a printing services business, handling product listings, cart, and order flow from scratch.
- ▶ Leveraged Firebase as the backend (Firestore + Hosting), enabling zero-server-cost infrastructure at launch.

Full-Stack Developer (Freelance) | Printer Shop Admin Dashboard · 2026

- ▶ Developed a bilingual (Arabic-first) admin dashboard for a commercial electronics retailer to manage sales records, maintenance requests, and inventory — replacing a manual paper-based workflow.

Full-Stack Engineer | Graduation Project: 3D AI Integration System · 2026 – Present

- ▶ Collaborating in a 7-member multidisciplinary team to integrate a 3D model of the Egyptian Pyramids with AI-driven features.
- ▶ Architecting a .NET Web API backend with a Flutter frontend, ensuring clean separation of concerns and seamless cross-platform delivery.

Mobile Developer | To-Do & Productivity App — DEPI Graduation Project · 2024

- ▶ Delivered a task management app featuring deadline prioritization, recurring reminders, and SQLite local persistence as the capstone project for Egypt's Digital Pioneers Initiative (Mobile App Track).

EDUCATION

B.Sc. Computer Science · Assiut University

Expected Graduation: June 2026

CERTIFICATIONS & AWARDS

- ICPC ECPC 2024 Honorable Mention — Collegiate Programming Contest, representing Assiut University (Day 6).
- Graduate — Digital Egypt Pioneers Initiative (DEPI), Software Development / Mobile App Developer Profile.
- Red Hat System Administration I — Certificate of Completion via ITI / Mahara-Tech.
- Cloud and Virtualization Concepts — Certificate of Completion via ITI / Mahara-Tech.

LANGUAGES

- Arabic — Native proficiency
- English — Professional working proficiency
